Special Investigations

January 23, 2006

**RE:**  
SI2005-871

**Investigative Summary**

Surveillance was conducted and the claimant was found to be mostly inactive.

**SYNOPSIS:**

On the first three days of surveillance, the claimant was verified home and inactive. On the last day of surveillance, the claimant was active in that he departed his residence and went to a Kinko's. Through further investigation we have determined that the claimant had cancelled his FCE appointment on this day. Specifically, we have obtained two minutes of film of the claimant entering and exiting his residence and driving.

Further investigation is not warranted at this time. Included with this file is a copy of the vendor's report and the invoice for the vendor's services that I request you pay as soon as possible.
